

June 3, 2014

Good evening President of the Board Collins, Clerk of the Board Davis, Board Trustees, Dr. Scroggin and Staff.

What a year! We accomplished a lot but so much more remains to be completed.

The Board strayed from the District right sizing plan. In doing so, it created a lot of turmoil and angst for our employees and our community.

I will make my message short and sweet tonight. I urge you to look back over this past year and reassess how you could have done things differently.

By the beginning of the next school year, this Board needs to meet and create a plan for this district and follow it. Do not relook at closing schools unless this Board plans to act on it. Don't drag out your decisions over months. It is too agonizing and unfair to everyone affected by the indecisiveness of this Board.

Even if the Board is not unanimous, it only takes 3 of you to determine the direction of the Board.

Thank you.
